### Tips for successful measuring

- Measure when your child is clothed only in underwear
- Keep tape measure firm, but not tight
- Chest: measure around the fullest part of the chest, under the arms and across the shoulder blades
- Waist: Measure around the natural waist line (around height of navel), keeping the tape measure a bit loose or putting one finger between your child's body and the tape measure.

**Top tip:** if you do not own a tape measure, simply mark a piece of non-elastic string with your measurements and then measure the string using a ruler.
